### CONCLUSION - STATEMENT

The Notified Body TÜV HELLAS (0654) hereby declares that the design, as described in the relevant Examination Report, meets the essential health and safety requirements of Lifts Directive 2014/33/EU. This certificate is only valid in conjunction with Annex A.

#### Note:

According to section 2.2 of Annex I to the Lifts Directive, the application of alternative measures to prevent the risk of crushing above and underneath the car is restricted to installations where the requirement for free space or refuges is impossible to fulfil and may be subject to prior approval by national authorities.

The certificate is valid until: 10.10.2023

Athens, 17.03.2023
